

# ENTRY COLLECTION ON ENCYCLOPEDIA PLATFORM: A SCHOLAR GENERATED CONTENT

**DEADLINE FOR SUBMISSION: AUGUST 15, 2020**

My Dear Colleagues and Friends:

I am writing to invite you to participate in this timely research and scholarly project. As one of the members of the ADVISORY BOARD OF ENCYCLOPEDIA PLATFORM, I have been assigned the responsibility of serving as the LEADER of the "ENTRY COLLECTION ON SUSTAINABLE DEVELOPMENT AND SUSTAINABILITY."

My responsibility is to collect and edit entries on the subjects of:

- 1) SUSTAINABLE DEVELOPMENT and
- 2) SUSTAINABILITY

I am inviting scholars/academics, professors at all levels of their profession and in all academic disciplines whose work impinge upon the subjects of sustainable development and sustainability, practitioners in all fields whose works incorporate or apply concepts of sustainable development and sustainability in an operationalized fashion to submit abstracts, short reviews, an introduction of the latest research work on a sustainable development or sustainability topic of about 1000 words. Tables, figures, graphs, and other types of illustration are allowed in the entries.

Once I have enough entries under these subjects, I will organize all entries into a systematic review of papers to be published in MDPI journal or even a book. Please send your entries to the email address: [vjames@clarion.edu](mailto:vjames@clarion.edu).

I look forward to a very successful collaboration and cooperation.

Thank you in advance.

Dr. Valentine Udoh James
